Connectors:

- Well
- Actually
- When I talk about
- Basically
- It depends
- As far as I know
- It's crystal clear that
- As a matter of fact

- From a personal point of view
- When it comes
- Honestly,
- In fact
- Frankly
- In my humble opinion
- In a nutshell,

## IELTS

### How many skills do we have the IELTS exam?

- 1- Speaking 15 minutes (one to one exam/ wear a fake smile)
- 2- Exam hall:
  - *Listening: 40 questions*
  - Reading: 1 hour (3 passages)
  - Writing : 1hour ( 2 essays)

### Introduction to Listening

| <b>Before the exam</b><br><br><b>What affects the score in listening?</b> <ul style="list-style-type: none"><li>• Stress</li><li>• No sleep</li><li>• Domino's effect (be careful of domino's effect)</li></ul> | <ul style="list-style-type: none"><li>- Answer listening in the morning. (40 mins before)</li><li>- It is the first exam in the IELTS.</li><li>- It needs concentration and focus</li><li>- The listening exam (40 question) is played once only.</li><li>- No breakfast or No Sleep</li><li>- Too much stress</li><li>- Not listening to the BBC: not familiar with the British accent.</li><li>- Distraction by colleagues</li><li>- Make sure that the headset is connected to the audio, and it's working.</li><li>- <b>Avoid Domino's effect (MOVE ON)</b></li></ul>                                                                                                                                                                                                                           |                      |              |                                    |                            |                        |                         |

#### A-How to read the clock

- Minutes (past/to) hours
- It's 7 on the dot/ sharp
- We will meet at quarter to 6 (5:45)

- We are meeting on Monday at half past 8 (8:30)
- You can put either a colon or a full stop in the clock (8.30 or 8:30)
- Watch the morning and evening words: 8:30 AM (AM or am or PM/ pm)= they are not considered extra words.
- 7:20  
20 minutes Past 7

Twenty five to 4

3:35

#### B- How to read the currency:

**\$7.30**

Currency first or amount of money?

SAR 40

KWD 30

\$ 40.20

Sterling 4.50

- Currency symbol before the number.
- It is not considered a word

#### C- Address:

32 Acton Park, West London = Avenue

(All in capital letters)

Do we have to stick to the capital rules in listening?

- Name

- Nationality
- Institution
- Title Mr. Dr.

D- Date: 16 April, 2019 (UK)

Listening: dates both are correct

US: March 10 (month – day)

UK: 10 March (day month year)

Note:

- Day: number
  - Month: a word (spelling January February)
- There are 4 acceptable ways of writing dates:

**UK Date:** Day/ Month/ Year

- 16<sup>th</sup> March, 2018
- 16 March, 2018 (without –th)

US Date: (9/11) Month/ Day/ Year

- March 16<sup>th</sup>, 2018
- March 16, 2018 (without –th)
- 

Note: dates (the course ends on 7<sup>th</sup> of July) -= optional

7 July     7<sup>th</sup> July

Date British or American

There is a difference between American or British

British date: day month year    14 June 2024

American: month day year

In IELTS?

Which should I follow?

- American
- British

The answer is: it does not matter.

- The suffix “th”, “nd”, “st” and “rd” are not considered extra words.
- According to IELTS instructions, they ask for one number only. This means that if you have the day, month and the year, don’t write the year in the answer.

2<sup>nd</sup> March, 2018.

Answer: 2<sup>nd</sup> March (**one number + one word**) = EXCLUDE THE YEAR.

13 April, ~~1950~~. (1 word and a number)

- Don’t put the preposition of in the date:  
28<sup>th</sup> of October (28<sup>th</sup> October)

#### **E- Numbers:**

- Watch the number “zero” (letter 0)= 007 / naught / nil
- Double 7- triple 6  
11 (double 11/ triple 111)
- **The following are considered one number:**
  - Telephone number 0101010101
  - Fax number 7
  - Booking number
  - Reservation number
  - Passport number: LA00557777
  - Visa number
  - Driving licence number

**Let’s do a listening exam now.**

- **Cambridge 14 Test 1**
-

## What's next in listening?

1- Study 1200 words

2- Practice one exam only:

## Task 2 Revision

### How to finish task 2 in 30 minutes:

- 1- Memorize the structure of task 2
- 2- Memorize types of sentences used in task 2.

### Task 2 (August, 2024)

The percentage of old people are increasing. Some view this as a negative and others see it as a positive. Discuss both views and give your opinion.

- Task 2: 250 -320 words

### Step 1: brainstorming in 2 minutes (ideas/ structure)

B</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Rephrase: (complex)                                                                                                                                            | <b>While</b> some social observers believe that the rise in the percentage of the elderly is a negative phenomenon, others think that they are a source of inspiration to young generations.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Opinion (because) + if required.                                                                                                                               | I agree with the <b>latter</b> view because grandparents could be family consultants and senior people can be experts in any business corporation.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Leave a line                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Body 1: Opposite view<br>Topic sentence (specific and carries the idea of the paragraph) + FIRST paragraph agrees with your opinion (if required)<br>T E X A S | <b>On the one hand</b> , some claim that senior citizens pose a threat to their communities socially and economically. First, there is a generation gap between the current generations and the predecessors. A questionnaire conducted by the Faculty of Social Studies, Cairo University, has shown that 4 out of 5 young adults see that their grandparents have old-fashioned ideas that do not apply to the future. Moreover, when it comes to business, the elderly are not familiar with technology. Hence, they may not be able to have correspondence with international companies via technological gadgets.                                                                                                                                                                                                                                                                                |
| Leave a line                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Body 2: my view<br>Topic sentence (specific + carries the idea of the second paragraph)                                                                        | <b>On the other hand</b> , some agree that the presence of the older generation is beneficial for families and in the business field, and I am convinced with this point of view. In other words, <b>when</b> newly married couples have a misunderstanding, they are usually advised to go back to their parents because the latter have gone through many hardships. For instance, in an article in an Egyptian magazine entitled "Women", many married women confessed that their marriage consultants during their first years of marriage were their old mothers, who have a full understanding of the family and cultural contexts. In addition, experienced seniors can be an asset to any company, if they are recruited and placed in the right position. This is why many CEOs of companies hire only young generations as employees whereas the senior staff become their own consultants. |
| Conclusion                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Summary<br>Restate opinion (if required)<br>Summary<br>Opinion                                                                                                 | In conclusion, after this essay has shown the debate about the role of older generations, I restate my point of view that they are quintessential on the personal and professional level. I am of the belief that media channels should highlight their roles to have a balanced society.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

## Sample Bar Chart

## IELTS Bar Chart Sample Answer

*The chart illustrates the amount of money spent on five consumer goods (cars, computers, books, perfume and cameras) in France and the UK in 2010. Units are measured in pounds sterling.*

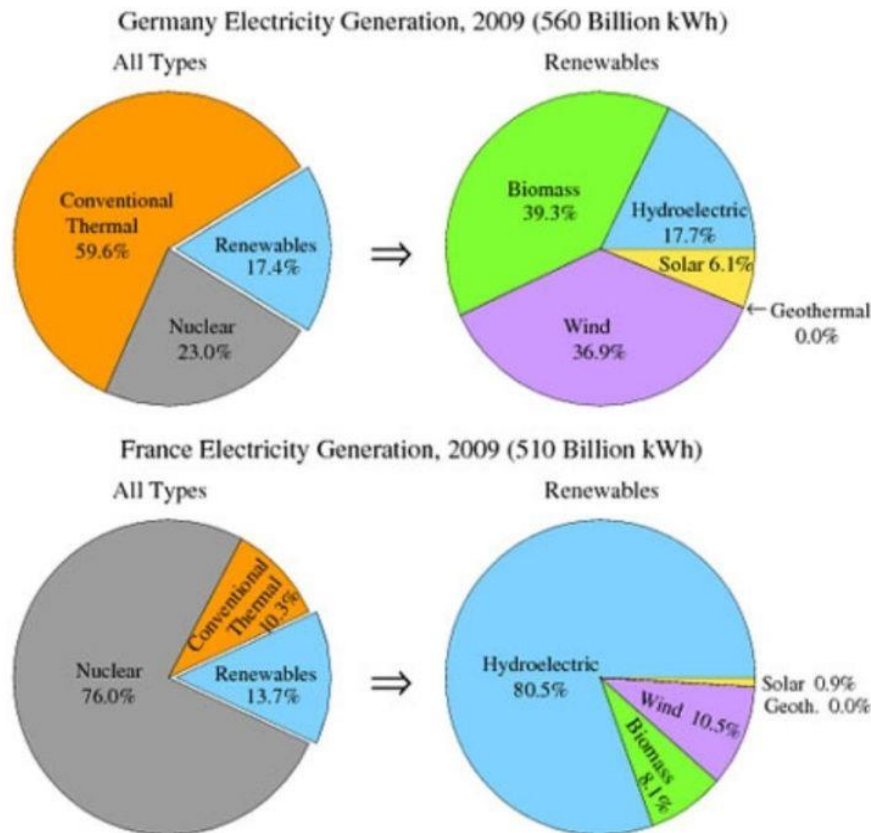

*Overall, the UK spent more money on consumer goods than France in the period given. Both the British and the French spent most of their money on cars whereas the least amount of money was spent on perfume in the UK compared to cameras in France. Furthermore, the most significant difference in expenditure between the two countries was on cameras.*

*In terms of cars, people in the UK spent about £450,000 on this as opposed to the French who spent £400,000. Similarly, the British spent more money on books than the French (around £400,000 and £300,000 respectively). In the UK, expenditure on cameras (just over £350,000) was over double that of France, which was only £150,000.*

*On the other hand, the amount spent on the remaining goods was higher in France. Above £350,000 was spent by the French on computers which was slightly more than the British who spent exactly £350,000. Neither of the countries spent much on perfume which accounted for £200,000 of expenditure in France but under £150,000 in the UK.*

Pie charts:

The pie charts show the electricity generated in Germany and France from all sources and renewables in 2009.

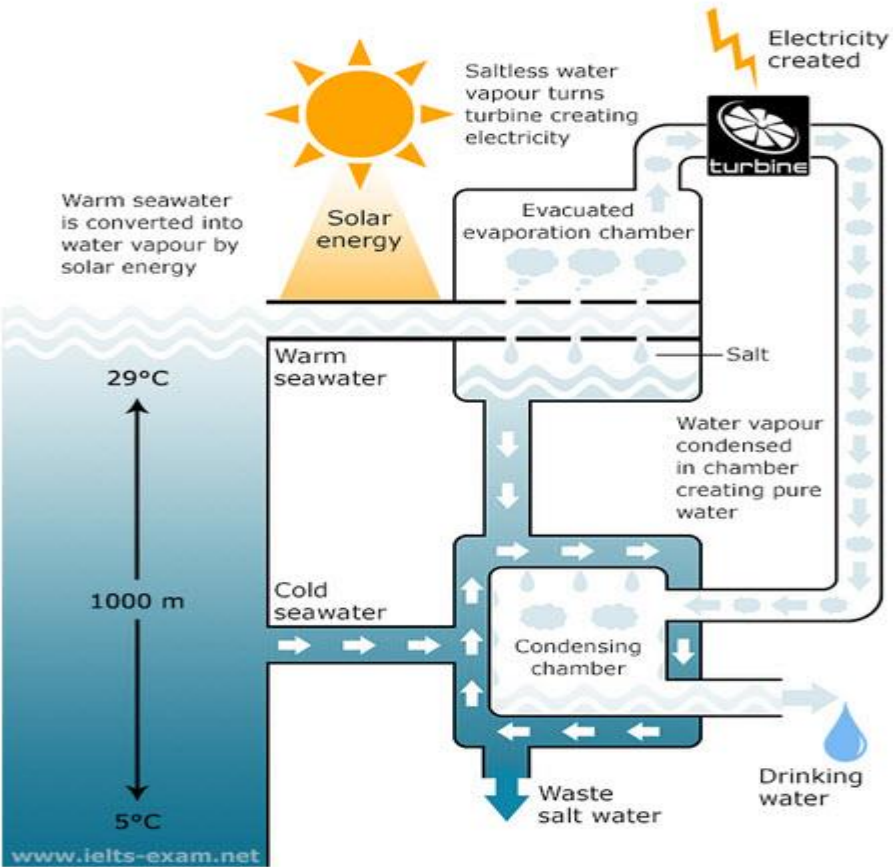

**Introduction: (rephrase + Units/ components)**

8. The diagram illustrates the process that is used to manufacture bricks for the building industry. Summarize the information by selecting and reporting the main features and make comparisons where relevant.

Write at least 150 words.

### The Brick Manufacturing Process

#### Model Answer

The diagram explains the way in which bricks are made for the building industry. Overall, there are seven stages in the process, beginning with the digging up of clay and culminating in delivery.

To begin, the clay used to make the bricks is dug up from the ground by a large digger. This clay is then placed onto a metal grid, which is used to break up the clay into smaller pieces. A roller assists in this process.

Following this, sand and water are added to the clay, and this mixture is turned into bricks by either placing it into a mould or using a wire cutter. Next, these bricks are placed in an oven to dry for 24 – 48 hours.

In the subsequent stage, the bricks go through a heating and cooling process. They are heated in a kiln at a moderate and then a high temperature (ranging from 200c to 1300c), followed by a cooling process in a chamber for 2 – 3 days. Finally, the bricks are packed and delivered to their destinations.
